

I would like to express my concern in regard to the proposed FCC Recording Requirement that is now being considered, that would require stations to record programs from 6a to 10p daily and retain for at least 90 days.

I believe this would be a tremendous financial burden on our stations in having to install and properly maintain the equipment, and I also believe it is unfair to ask ALL stations including small market stations to help bear the brunt of this burdensome requirement when the problems have generally stemmed from only a few stations in larger markets.

For these reasons and others, I strongly oppose this proposed requirement.
